### What our students need for revised Key and Preliminary - and beyond!

In the coming year, two of the exams which we often prepare learners for and push students towards taking - A2 Key and B1 Preliminary - are undergoing major changes in format. As such, we teachers who prepare learners for the exams need to be familiar with the changes, as well as how to best prepare learners for them! In this session, participants are going to briefly examine the changes in format on the new versions of both Key and Preliminary. As well, they will look at some practical ways they can incorporate exam preparation into their classrooms using their usual course books and exam preparation materials, while at the same time preparing their learners to use their English in the real world.
